

HOW DO WE RESPOND TO THE CLIMATE AND NATURE CRISIS?

Sat 3rd October, 1-5 pm

Free of charge. Norwich venue TBC

As communities in Norwich & Norfolk, how can we respond to the impacts of climate change and ecological destruction in an increasingly insecure and polarised world?

Open to anyone, this workshop helps you discover the risks and solutions of climate adaptation. Inspired by stories from other places, we will plan ways to address the risks we particularly face here.

Organised by Climate Museum UK & Garama 3C Ltd.
